

EU Ship Recycling Regulation

Dir Sir or Madam,

we have received your inquiry regarding the „EU Ship Recycling Regulation“.

The European Parliament and the Council of the European Union adopted the Ship Recycling Regulation (EU SRR) on November 20, 2013.

The aim of the regulation is to reduce the negative impacts associated with ship recycling.

We explain the pollutants listed in this regulation in our REACH declaration as well as in the RoHS Directive 2011/65/EU incl. (EU)2015/863.

We do not use any other pollutants listed additionally.

Our suppliers undertake to comply with substance bans and declaration obligations in accordance with the current regulations.

Transparency, intensive, cooperative collaboration and a lively exchange of information are the foundations of our business relationships. In this way, we ensure that the parts supplied meet our and legal requirements.

If you have any further questions, please do not hesitate to contact us.
